Moapa Paiute Farm

Mission Statement:

“From Landfill

to

Land Improvement”

Moapa Band of Paiutes

Moapa Paiute Farm

Trucks loaded with waste wood fiber dump at Valley of Fire

Moapa Band of Paiutes

Moapa Paiute Farm

The grinder accepts all wood products from chips to tree trunks.

Moapa Band of Paiutes

Moapa Paiute Farm

A1 Organics has relocated to the Valley of Fire for making compost.

Moapa Band of Paiutes

Moapa Paiute Farm

Reid-Gardner energy plant experimented mixing coal with wood bio-fuel.

Moapa Band of Paiutes

Moapa Paiute Farm

Used Mobark Grinder purchased with funds from RBEG.

Growth and Opportunities

- B-Cap grants for transportation of wood and woody bio-fuel
- Opens markets for power plants in neighboring states
- Railroad through reservation offers future transportation
- Governmental Regulations and Technology are in favor of recycling opportunities for growth
- Solar energy negotiations include bio-fuel boilers for night production
- Possibility of wood torrefaction ovens for higher BTU bio-mass
